

REMARKS

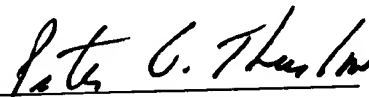

This application has been reviewed in light of the Notice of Informality dated September 17, 2002. Claims 1-25 are pending in this application with Claims 1-5, 8-17, and 20-25 being in independent form. Favorable reconsideration is requested.

The Notice of Informality stated that the specification was improper because of the incorporation by reference of essential material from Japanese patent application 2000-17568. Although Applicants do not believe that the incorporation by reference of subject matter from Japanese patent application 2000-17568 was improper, in an effort to advance prosecution on the merits in this case, Applicants have deleted this incorporation by reference language from the specification.

In view of the foregoing amendments and remarks, Applicant respectfully requests favorable reconsideration and early passage to issue of the present application.

Applicant's undersigned attorney may be reached in our New York Office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address listed below.

Respectfully submitted,

Attorney for Applicant
